

# CS4500 Weekly Management Report

Team 9

Team Intuitive Intel

10/21/2022

## Accomplishments

P6: Started writing a new React components to display all the tips posted by the User (logged in). (Nanda)

Part of P5: Polished the likes/dislikes system. (Garrett)

P6: Finished writing the React Component that displays all the tips posted by the User (logged in). (Garrett)

Part of B3: Updated query to manually cascade an update in users. (Garrett)

P10: Implemented logging in on the python application. (Garrett)

P2: Users have a local storage .json file which can be used to remember their preferences across closing and re-opening the app. This additionally works for favorite character, not just skill level. (Johnny)

Part of P8: Basic buttons and functions for rating, no database relation yet since UI does not support logging in yet.

P4: Start implementing a rating system for individual tips (Alec)

Part of W6: Started working on drafting how the database will handle unknown games (Alec)

Part of P5: Modified the user interface for the table containing all the available dicussion rooms for multiple games, Wrote custom css properties for the table coloring (Nanda)

Part of P5: Added the pagination functionality to the table to view only limited number of chat rooms on the webpage (Nanda)

Part of P5: Modified the App bar by displaying the username and menu items with the App name centered (Nanda)

## Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primary responsible and when due)

## Short Term -

P8: Users can rate the tip they recieved (Johnny - October 30)

Part of P5: Add color theme to the Tips card (#3 Nanda - October 30th)

W3: Users can follow other users from overlay (Johnny - November 6)

Part of P5: Give the Tips section a better look by adding a custom CSS properties to get a dark background and position the elements. (#1 Nanda - October 25th)

Part of P5: Enable comments field in the component to add new comments to each thread if the user already signed up (do conditional rendering) (#2 Nanda - October 30th)

Part of W6: Implement draft of how database will handle unknown games. (#1 Alec - October 30)

B3: Finish up most queries that we will need for the React App. (#1 Garrett - October 30)

Part of P5: Assist Nanda with developing the comments page. (#2 Garrett - October 30)

Part of W5: Research some options for automatically launching our app when a game is opened. (#3 Garrett - October 30)

Part of W3, P8: Assist Johnny with any SQL queries he may need. (#4 Garrett - November 6)

## Long Term -

W9: Users can upload a new game from overlay (Johnny November 13)

W4: Searchable User-made tags (Johnny - November 23)

P5-Extended: Add more webpages to view game tips on the forum app/ to view tips that a user posted (Nanda – November 10th)

W6: Make app capable of uploading tips for a game that doesn't exist in the database (Alec – November 6)

## Needs

(List any help you need from upper management – specify whether TCH or sponsor)

We don't need any help at this time.
