

CS4500 Weekly Management Report

Team 9

Team Intuitive Intel

9/30/2022

Accomplishments

Fixed multiple SQL queries on both the Forum and our Application. (Garrett)

Implemented individual user images into our comments page and database. (Garrett)

Added time stamps to our comment page and the database. (Garrett)

P8: Added new state for creating a tip within the UI (Johnny)

P8: Created query to send tip to database from UI (Johnny)

Resolved React upstream dependencies and made sure it does not happen again on local development server (Nanda)

Reworked on some endpoints to talk to database on CORS side (Nanda)

Create the comments sections for each thread created, as of now I have tried multiple ways of doing it but it was not very functional, looking into other options or doing it from scratch which would take good chunk of time (Nanda)

Found working solution for manually uploading files to a production server via FileZilla (Alec)

Added queries for all functionality of UI. Not final version with safety measures but functional (Johnny)

Modified the user interface for the table containing all the available discussion rooms for multiple games, Wrote custom css properties for the table coloring (Nanda)

Added the pagination functionality to the table to view only limited number of chat rooms on the webpage (Nanda)

Modified the App bar by displaying the username and menu items with the App name centered (Nanda)

Pull the user information from the Google Authentication used for the App bar to display the profile picture for each comments posted on respective thread (Nanda)

Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primary responsible and when due)

Long Term -

P7: Make UI fully interact with database (Johnny - October 15)

P9: Discussion thread to support adding new comments and better styling required which looks like a chat app (Nanda - October 27)

B3-Extended: Continue altering and creating queries between the React website and postgres db. (Garrett - October 30)

P5-Extended: Add more webpages to view game tips on the forum app/ to view tips that a user posted (Nanda – October 30)

B3: Setup all endpoints on CORS/Express and structure the JSON data to and from the backend to frontend (Nanda – Oct 30/Ongoing)

B4: Support the feature of user created tips in the database (Alec – Oct 15)

B1: Finalize UI and create UI for uploading a tip (Johnny)

Short Term -

P8: Add granularity for creating tips (make map, character, skilllevel optional) (Johnny - October 7)

P9: Give the comments section a better look by adding a custom CSS properties to get a dark background and position the elements. (#1 Nanda October 10th)

P9: Enable comments field in the component to add new comments to each thread if the user already signed up (do conditional rendering) (#2 Nanda October 8th)

P6: Start writing a new React components to display all the tips posted by the User (logged in)(#3 Nanda - October 15th)

B3: Get the React fully hosted with a plan to keep the git repo hosted in sync with the pushes made (#1 Alec – October 7)

P6: Create backing queries for the page to view a user's previous tip. (#1 Garrett - October 7)

P6: Assist Nanda with developing the front end for our previous tip page (#2 Garrett - October 15)

Needs

(List any help you need from upper management – specify whether TCH or sponsor)

We don't need any help at this time.
