

CS4500 Weekly Management Report

Team 9

Team Intuitive Intel

10/7/2022

Accomplishments

Part of B3: Fixed and added multiple SQL queries on the React Forum App. (Garrett)

Part of P5: Added in a rudimentary like and dislike system. (Garrett)

Part of B5: Started measuring feasibility of pushing code to an ec2 via FileZilla (Alec)

Part of B5, B4 finished: "create a tip" state fully functional within UI; added default text, descriptive titles, and query creation for any combination used (Johnny)

Part of P10, P8 background: Refactored state machine to be more readable and compact. (Johnny)

Part of P5: Modified the user interface for the table containing all the available discussion rooms for multiple games, Wrote custom css properties for the table coloring (Nanda)

Part of P5: Added the pagination functionality to the table to view only limited number of chat rooms on the webpage (Nanda)

Part of P5: Modified the App bar by displaying the username and menu items with the App name centered (Nanda)

Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primary responsible and when due)

Short Term -

P2: Add local storage to store default skill level per game (Johnny October 16)

Part of P5: Give the comments section a better look by adding a custom CSS properties to get a dark background and position the elements. (#1 Nanda October 25th)

Part of P5: Enable comments field in the component to add new comments to each thread if the user already signed up (do conditional rendering) (#2 Nanda October 25th)

P6: Start writing a new React components to display all the tips posted by the User (logged in)(#3 Nanda - October 16th)

P4: Start implementing a rating system for individual tips (#1 Alec – October 16)

P6: Assist Nanda with developing the front end for our previous tip page (#2 Garrett - October 15)

Long Term -

B6: Make UI fully interact with database (almost done!) (Johnny - October 15)

P10, P8, W3: Users can login to UI and follow, rate, etc. from UI directly (Johnny - November 6)

P5-Extended: Add more webpages to view game tips on the forum app/ to view tips that a user posted (Nanda – November 10th)

B3: Setup all endpoints on CORS/Express and structure the JSON data to and from the backend to frontend (Garrett – Oct 30/Ongoing)

W6: Make app capable of uploading tips for a game that doesn't exist in the database (Alec – November 6)

Needs

(List any help you need from upper management – specify whether TCH or sponsor)

We don't need any help at this time.
