CS4500 Weekly Management Report

Team 9

Team Intuitive Intel

9/1/2022

Accomplishments

Finshed writing the login page for the forum app. (Nanda)

Resolved all the errors with packages and dependencies for the React Application. (Nanda & Garrett)

Added styling to the page which contains discussions threads, made the UI look better. (Nanda)

Connected React app to our postgres db hosted on AWS. (Garrett)

Added game names to SQL tables and altered React app to support them. (Garrett & Nanda)

Altered SQL tables and created new ones to support future functionality for React app. (Garrett)

Made major progress on finalizing the database schema and implementing it on the postgres db (Johnny)

Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primary responsible and when due)

Long Term -

Deploy React app to AWS. (Garrett, Nanda, & Alec)

Short Term -

Further expand SQL connectivity to the React App. (#1 Garrett)

Start working on creating a user sign up page. (#1 Nanda)

Provide SQL backing for login functionality for the React App. (#2 Garrett)

Refine the threads table and add more info like time stamps, number of comments on thread. (#2 Nanda)

Continue to meet and assist Nanda with React app development. (#3 Garrett)

Research more on Material UI components for all uses cases to build interactive UI. (#3 Nanda)

Find working solutions of react apps hosted on AWS to use as examples for how to set one up (#1 Alec)

Test to see how to get OCR to run on a GPU (#4 Garrett, #4 Nanda, #2 Alec)

Finish implementing the database schema onto the postgres db (#1 Johnny)

Needs

(List any help you need from upper management – specify whether TCH or sponsor)

We don't need any help at this time.
