CS4500 Weekly Management Report

Team 9

Team Intuitive Intel

8/26/2022

Accomplishments

(Be specific – what was accomplished and who participated; bulletize response)

Nanda –

- Created a react application with express and postgres sql
- Initiated a GIT repository
- Created a crude operation to create a thread based on game and its description
- Finished frontend to create a new thread

Alec –

- Started making team website
- Exploring how to get a GIT repo hosted on AWS

Johnny–

- Added UI functionality for cases where OCR fails/ user opts out (opt out not a UI feature yet)
- Tried out different UI options within TKinter (Dropdown, multiple select, etc.)
- Made the dropdown options query the database instead of hardcoded

Garrett –

- Performed troubleshooting for the github repository for react app (it was not uploading to git before)
- Created a small instruction manual for deploying the development version of the react app

Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primary responsible and when due)

Nanda –

- Setup the backend to add comments
- My next goal is to create a section to add comments to a thread
- Finish writing the frontend for adding comments
- Look into deploying the pern stack (teammate support needed)

Alec –

- Finish website
- Get the forum application hosted on AWS

Johnny–

- Work on speeding up OCR: look into some true multithreading options or figure out how to configure GPU correctly

Garrett –

- Assist Nanda in developing our forum app

Needs

(List any help you need from upper management – specify whether TCH or sponsor)

Nanda –

My teammates are helping me enough, as of now I don't need any further help.

Alec –

None, there is a healthy and open line of communication with all of my team members.

Johnny–

So far, so good.

Garrett –

My team and I seem to be moving along just fine and have no need for assistance right now.
